## Manual of Procedures

The M.A.A.A. Manual of Procedures is on the M.A.A.A. web site.

## Team Trials for 2005 F3B (Gliding) World Championship

I have been advised by the League of Silent Flight that the team trials for the 2005 F3B Championships will be held at the Nanango (Qld) Race Course on November 6, 7 and 8 2004. Anyone interested in attending they should contact Mark Weir-Smith on 0421 613 285.

## M.A.A.A. Affiliation Fees for 2004/05

The M.A.A.A. Council has met via a teleconference and set the M.A.A.A. affiliation fees for 2004/05. Fortunately the insurance costs did not continue the upward spiral that we saw over the past years. The actual cost of insurance actually dropped slightly. In some part due to the low number of claims that our members made. Let us hope that our good safety record continues. We should all be vigilant at all times to eliminate unsafe practices and improve safety.

The M.A.A.A. Senior & Pensioner affiliation fee fell from \$110-50 to \$110-00, the junior fee \$97-85 to \$95-00. It should be noted that the State Association affiliation are to be added to these fees as are your club fees.

## Insurance Policies Covering M.A.A.A. Members

Being an affiliate member of the M.A.A.A. you are covered by four different insurance policies. These being;

1. Third Party Public and Products Liability
2. Personal Accident
3. Directors and Officers Liability / Corporate Reimbursement Insurance
4. Professional Indemnity

All but about \$28 of the current \$110-00 M.A.A.A. Senior fee goes towards the costs of insurance. I shall attempt to explain the cover that these policies offer.

## Third Party Public Liability

This policy provides a limit of \$20,000,000 with an excess of \$10,000. The member on whom the claim is made is responsible for the first \$250 with the M.A.A.A. being responsible for the remaining \$9,750 of the excess. You will understand why we are so concerned at reducing accidents, as the insurance policy does not kick in until the total claim is over \$10,000.

This policy indemnifies you for personal injury or property damage to third parties that you are found to be legally liable for as a result of the pursuit of model aviation. The policy also includes member-to-member cover. This means that if a member causes another member serious injury and/or property damage the policy will be respond. It is impossible to give definite answers as to coverage in specific circumstances. It should be noted that the ultimate arbiter on any claim would be a Court of Law.

It should be noted that as result of a decision taken by the M.A.A.A. Council at their 2004 meeting damage to models, irrespective of the cause, will not be covered by the third party public liability policy.

The policy also provides third party legal liability cover for clubs and associations. This includes claims for damage against the club from members of the public visiting the club facilities. It also includes cover for catering, provided all State catering regulations are abided by. Claims resulting from injury caused by playground equipment on the club grounds are also covered. The equipment should comply to State requirements and be properly maintained.

If a club organises a public display the policy covers the third party liability aspects of the function provided that all the necessary regulations are abided by. Any public display involving radio-controlled aircraft requires a display permit. See the M.A.A.A. Manual of Procedures on the web site for information.

It should be noted that it is extremely difficult to obtain this type of insurance and even harder to get member-to-member cover. Those who have been in the M.A.A.A. for a number of years will have noticed the steep rise in fees. This has been mainly due to insurance cost increases.

There is no age limit for the third party policy.

Many people have noted that they have a similar cover with their home and contents policy and ask why can't they use that policy. The simple answer is administration. From feedback I have received, the vast majority of members "demand" that all that fly have a policy that can be actioned should they be unfortunate enough to sustain injury or damage as a result of the actions of another member. To have people monitoring other coverage, dates of currency and conditions of the many home

policies of members would be an impossible task. Not all provide the same level of cover as the M.A.A.A. policy. I am sure that no member of a club would volunteer for the position of "insurance officer". Imagine their predicament if there was an accident and they found that the "insurance officer" had let a person through without adequate insurance cover. The MAAA is able to obtain the cover it does at, relatively speaking, very good rates due to the fact that having all members covered spreads the risks and ensures that even if there is a claim the individual is not singled out for any resulting increase in premiums.

### **Personal Accident**

This provides personal accident coverage for affiliate members under the age of 80 years;

1. Competing in competitions and championships and other activities organised and under the control of the insured;
2. Acting as an official at competitions and championships organised and under the control of the insured;
3. Acting as an elected official of the insured;
4. Engaged in volunteer activities organised and under the control of the insured including direct travel to and from such activities;
5. Travelling directly to or from activities described in 1 to 4 above.

Organised would mean the M.A.A.A. and associated clubs having sanctioned the events or activity. This would include training, testing and activities at the club / fields. It should be noted that the coverage does not include your activities with model aircraft at home.

The policy also provides for salary maintenance for salary earners. It provides 80% of net wages up to a maximum of \$500 per week for a maximum of two years. It also pays 80% of the non-Medicare medical expenses to a maximum of \$4,000 for each claim. There are also stipulated maximum amounts for loss of sight, hearing, limbs etc.

The policy has an excess of \$50 and 7 days in the case of salary maintenance.

It should be noted that the policy does not cover the medical fee "gap". That is the difference between the Medicare rebate and the fee charged by medical practitioners. It is illegal to have insurance to cover this.

The M.A.A.A. will reimburse members, who are over 80 for a complete membership year, the cost of the personal accident premium, both 2003/04 and the current year 2004/05, if the person sends a copy of "proof of date of birth" to the M.A.A.A. Secretary. The Secretary will arrange for a refund of the policy cost, about \$6-00, to be sent.

### **Directors and Officers Policy**

This policy covers the legal expenses of the Club or Association and its officials in the event of them being subjected to legal action as a result of their position. It

should be noted that the club officials should exercise due care and with regard to State and Federal laws in carrying out their duties as directors.

As in all other cases if the Club Executive believes that there is a possibility that they will be involved in legal action they should contact the M.A.A.A. Secretary as soon as possible.

The excess on each and every claim is Nil for Directors and Officers Liability and \$2,000 for Corporate Reimbursement

### **Professional Indemnity**

This policy covers Inspectors, Club Officials, and Instructors for advice that they may give in regards to model aviation. It is also possible for Professional Instructors, who are members of the M.A.A.A. to be listed on the policy for their activities as a profession instructor of model aviation. For a member to be listed as a Professional/Paid instructor they must hold the M.A.A.A. Instructor Rating, have the recommendation of their State Association and have permission from their club/s to conduct paid instruction at their field/s.

Members holding an M.A.A.A. Instructor rating interested in "registering" as a professional/paid instructor should contact the M.A.A.A. Secretary for more information. There is currently a \$50 fee per year to be listed on the policy.

The excess on each and every claim is \$2,000 that is the responsibility of the party on who the claim is made.

### **What to do in the Event of a Claim**

The M.A.A.A. Manual of Procedures includes a procedure "Accident / Incident Reporting and Actions Procedure" which details the process that should be followed in the event of an injury and/or possible insurance claim. A copy of the procedure is available on the M.A.A.A. web site or from the M.A.A.A. or State Association Secretary.

It is important that all possible claims are reported as soon as possible. Please ensure that witnesses are recorded and statements taken. It is hard to chase up everyone after the event.

Please note that every incident/accident should be thoroughly investigated and "closed out" in accordance to the requirements of the procedure. The importance of reducing accidents is vital to our organization. We do not like to see fellow members injured and it also adds greatly to our costs. Please do your bit and be very vigilant with the aim of no accidents.

As I have noted many times, the meeting of prop and fingers still seems to be a favourite trick for many of us. Although it sounds a bit of lark the injuries sustained by some of our members are very severe. Some have lost fingers and others the full use of them. Please be careful around props and use effective aircraft restraints when starting. Most important of all, do not reach over a turning prop, go behind to

release the glow plug and make adjustments. Safety is a continuing thought process.
